

FISH NICARAGUA!

The waters off the Pacific coast of Nicaragua are teeming with a wide variety of fish! Rooster fish, sierra mackerel, jack crevalle, bonito, hound fish, snapper and grouper can be found in inshore waters. Offshore roam black, blue and striped marlin, sailfish, yellowfin, wahoo, and dorado. Good fishing can be found in the estuary and there are a few reefs located within 5 miles of the marina with good shore structure. Offshore fishing will take you out 30 plus miles to get to the humps and drops.

Our packages are designed for four anglers per vessel. We supply professional fishing gear; Shimano Tiagra reels with Penn IGFA International rods, plus a wide variety of lures. Each fishing package includes an experienced captain and deck hand to help you land that big one!

For a great day on the water, we also provide a box lunch, refreshments and ice!

Marina Puesta del Sol
